

IPDAS Forms Library: A Complete List

A Complete Library of Practice-Specific Documents.

The IPDAS forms library contains **more than 450 templates** for use in:

- USPTO and international filings (PCT, Hague, Madrid)
- Communications with clients and other related parties and
- Administrative functions (like a fax cover sheet, debit note, or check request).

Report templates enable global, client-level and case-level review of docket status, attorney caseload, and related-party information.

The library is divided into eight sub-libraries:

- PTO forms
- International forms
- Captioned documents
- Letters
- Administrative forms
- E-mails
- Memos
- Other forms.

To reflect changes in USPTO rules and requirements, **templates are regularly updated**, and new templates are added as necessary.

The IPDAS engine inserts data into the templates to produce print-ready, editable **MS® Word documents** or e-filing-ready **PDFs** that can be saved and retrieved as needed.

The following pages provide a complete list of all templates in the IPDAS forms library.
